

Northeastern University

Center for the Study of Sport in Society

- Project:** Game Change
- Sponsors:** New England Patriots and MA Attorney General's Office
- Goal:** Foster long-term anti-violence & healthy relationship education in school
- Training:** The Reading Memorial High School will host a training for a small group of student leaders representing a cross-section of our extracurricular activities, clubs and athletics. The training will be held over two school days and will focus on healthy relationships. The training dates are Jan. 25th and Jan. 26th (8:45am-2:11pm on both days). Students must be able to attend both days of training in order to be part of this process.
- Students:** An email will be sent to Advisors and Coaches to share with their student leaders to sign up. We will review the list and ensure we have at least 30 student leaders from existing afterschool activities, clubs and/or athletic teams that align with the priorities below.
- Priorities for selection:
- 1) Juniors in good academic standing
 - 2) Juniors in good standing with their club or team
 - 3) Juniors interested in the training
 - 4) Juniors that want to advance their leadership development
 - 5) Juniors from a cross-section of different activities
- A list of students that attend training will be sent to teachers but students should let their teachers know.
- Post-Training** Following the training, student leaders will meet with our Adult Advisors (Mrs. Hopkinson, Mr. Fiore, Ms. Hagopian, and Mr. Zaya) on Tuesday Jan. 30th from 7:30-7:55 am. At this meeting, we will discuss how students can use their training and make changes to improve our school.
- Contact:** Thomas Zaya, x820
