

Dear Third Grade Families,

As part of our digital citizenship curriculum, third grade students are participating in the free school-based FBI-SOS (Safe Online Surfing) Internet Safety Program and Internet Challenge. The objective of the FBI initiative is to educate students about cyber safety.

Students will be taking a virtual tour through the Grade 3 portal to promote good citizenship while using technology and the internet. Through the site activities students will learn about many topics such as protecting personal information, online safety and etiquette and cyber bullying. After students have completed all activities, they are given an exam. Students will be using the site in library classes and are encouraged to use the site at home to gain a good understanding of digital citizenship and safety.

Top scoring schools, as compared to area schools of similar size, will receive an FBI-SOS certificate for each student. If possible, the winning school will also receive a visit from an FBI agent.

For more information, visit <https://sos.fbi.gov>.

Please remember that children under the age of 14 should be supervised while using technology.

Please contact me if you have any questions.

Sincerely,

Karen Ghirardi

Library Media Teacher

Dear Fifth Grade Families,

As part of our digital citizenship curriculum, fifth grade students are participating in the free school-based FBI-SOS (Safe Online Surfing) Internet Safety Program and Internet Challenge. The objective of the FBI initiative is to educate students about cyber safety.

Students will be taking a virtual tour through the Grade 5 portal to promote good citizenship while using technology and the internet. Using the site activities, students will learn about many topics such as protecting personal information, online safety and etiquette, cyber bullying and social networking. After students have completed all activities, they are given an exam. Students will be using the site in library classes and are encouraged to use the site at home to gain a good understanding of digital citizenship and safety.

Top scoring schools, as compared to area schools of similar size, will receive an FBI-SOS certificate for each student. If possible, the winning school will also receive a visit from an FBI agent.

For more information, visit <https://sos.fbi.gov>.

Please remember that children under the age of 14 should be supervised while using technology.

Please contact me if you have any questions.

Sincerely,

Karen Ghirardi
