

## JOSHUA EATON SCHOOL

### **PROTOCOL FOR ALLERGEN FREE TABLES**

**Students in our school have allergies to a number of foods including peanuts, tree nuts, milk egg, wheat, fish, shellfish soy, sesame and others.**

**To best accommodate all children, we offer areas of the cafeteria that are allergen free.**

**This means that other children in the classroom are welcome to bring those foods for lunch, but must sit at another area.**

All students who have had peanut or nut products for lunch must wipe their hands with wipes that are provided after their lunch has been thrown away.

The allergen free tables are wiped by an adult between lunches.

Thank you for helping us maintain safety in the cafeteria!
